Proposal

Application by Croatia to Host the 2015 ITA/AITES World Tunnel Congress

Dear Colleagues:

The Croatian Association for Tunnels and Underground Structures – ITA Croatia invites the ITA-AITES to hold its World Tunnel Congress and General Assembly in Dubrovnik from May 22-28, 2015. We confirm our acceptance of Chapter V of the Bylaws of ITA-AITES : the Congress and General Assembly will be organized in accordance with Chapter V.

Croatia is located in the middle of South-East Europe and is in preparation to join the European Union in July 2013. South-East Europe is the EU region with the most expectations and plans in developing infrastructure in next 2 decades in Europe. Therefore choosing Dubrovnik with its location in the middle of the South-East Europe region and in the heart of Europe we would like to make the sign to all other member nations where to go and where to intensify their activities in the soon future. So far none of SEE countries have had opportunity to organize on World Tunnel Congress and this happening may strongly help further development of underground infrastructure in the future.

Dubrovnik is the old city, port on the Adriatic coast, center of tourism and a congress center that is able to take more thousands of guests at the same time. It is also one of centers of the infrastructure works with unique underground solutions (underground HPP Ombla, city road tunnel, light rail to airport, new road roundabout) that will all be in construction in 2015. Dubrovnik will provide an excellent technical and social setting for the World Tunnel Congress 2015.

Croatia's proposal to host WTC2015 is supported by the ITA Croatia's corporate and individual members, Chamber of Civil Engineers and several Ministries who will all be an active full partner in the preparation and organization of the Congress.

Yours sincerely,
President of the Croatian Association for
Tunnels and Underground Structures - ITA Croatia

Davorin Kolić, PhD, PE, CE

Letter of Support City of Dubrovnik

Prof. In-Mo LEE
President of the
ITA-AITES
Lausanne, Switzerland

Dear Prof. Lee,

City of Dubrovnik is glad to have the possibility to invite International Tunneling Association ITA-AITES to have their "General Assembly and Congress of International Tunneling Association" in our city in 2015. We are prepared to make all the necessary arrangements which will provide high quality accomplishments for your event.

We understand that strong underground infrastructure could give important benefits to development of the city and the entire region. In that sense we are already active on using our own cities underground space for public traffic projects, like City Road Tunnel or Metro that are to be developed in coming years. Therefore, this event will be warmly welcomed and supported in Dubrovnik with our strong support for all the Assembly and visiting guests, delegates and honorable persons.

If the ITA-AITES decide upon Croatia to host the event you can rely on our official and practical support that will guarantee enjoyable stay for all attendees. Together with ITA Croatia we will invest efforts for the benefit of the General Assembly and Congress in 2015 in Dubrovnik.

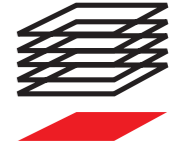

Yours sincerely,

Mayor

dr. Andro Vlahušić

Letter of Support Croatian Chamber of Chartered Engineers

Croatian Chamber of
Chartered Engineers

Prof. In-Mo LEE
President of the
International Tunneling and Underground
Space Association ITA-AITES

Lausanne, Switzerland

Dear Prof. LEE,

Croatian Chamber of Civil Engineers has supported activities of ITA Croatia and ITA_AITES through numerous events, seminars and through publishing of books in last years. We do understand that the development of the underground structures in Croatia will have a positive influence on entire development of civil engineering structures in Croatia.

Therefore we are glad to actively support the hosting of ITA-AITES World Tunnel Congress and General Assembly in Dubrovnik, Croatia, in 2015. ITA-AITES can be sure that through the support of Croatian Chamber of Chartered Engineers a wide society of civil engineers of Croatia will be informed and invited to the congress showing them which possibilities and advantages is the development of underground structures bring to our society and civil engineering community as well.

We hope that delegates of member nations of ITA-AITES will decide in the favor of Dubrovnik for the WEC2015. We would be very much glad to have guest from civil engineering community all over the world in our beautiful city of Dubrovnik in 2015.

Sincerely yours,

Croatian Chamber of Chartered Civil Engineers President
Zvonimir Sever, Ms.C.E.

Letter of Support Croatian National Tourist Board

Subject: General Assembly and Congress of the International Tunneling Association

Dear Prof. LEE,

The Croatian National Tourist Board institutionally supports the holding of international meetings in our country Croatia. We are ready and very much willing to make on required and necessary arrangements for the high quality performance of such events. Our long time experience will secure satisfaction of all participants, visitors and honourable guests to the event.

Therefore it is a great pleasure to be able to cooperate with ITA-AITES and ITA Croatia on the possibility to prepare the General Assembly and Congress of the International Tunnelling Association that should be held in 2015. We are sure that Croatia is the place that could represent intentions and wishes of the region SEE and can fulfil all requirements for numerous guests and visitors.

If your decision will be for Croatia to organize your event Croatian National Tourist Board will assure high quality promotional materials including brochures, CDs, DVDs and posters.

We do hope to see you in Dubrovnik, Croatia on the occasion of WTC2015!

Yours sincerely,

Niko Bulić, M. sc.

We are sure that Dubrovnik is the place that could represent intentions and wishes of the region SEE and can fulfill all requirements for numerous guests and visitors.

We do hope that your final decision to hold General Assembly of ITA 2015 will be Dubrovnik, Croatia, and you can rely on our official support and co-organization to guarantee excellent service to all you delegates and guests. Dubrovnik Tourist Board will provide assistance to meeting and conference organizers and gives free and impartial advices in event planning, complimentary venue finding service, give a support to fam & inspection trips within a destination, and provide with promotional material.

We do hope to see you in Dubrovnik, Croatia on the occasion of WTC2015!

Yours sincerely,

Nikolina Vicelić
Director

Thursday, March 24, 2011

The TBM "Heidi" had a breakthrough at the section Sedrun-Faido of the Gotthard Base tunnel in West (Switzerland). Among numerous participants on project some of them are from Croatia as well.

Our target:

Promoting and developing tunnelling in Croatia and South-East Europe (SEE) countries

SEE region has more than 150 million inhabitants and a great need for underground infrastructure. This region will be the part of the Europe with most of investments in infrastructure in next 15-20 years.

More than 1200 km of highways in Croatia with numerous tunnels provide basis for the application of new tunnelling technologies and methods.

Tunnelling in Croatia

Tunnelling in Croatia

Beside different used tunnelling technologies a lot of effort has been put in the tunnel safety measures. Tunnels are equipped with the state of the art traffic surveillance and management system. They are equipped with video cameras that display situation on monitors in MTC centre and provide the possibility of automatic detection of congestion, driving in opposite direction, recording the number of vehicle. The system provides the traffic operator accurate data in order to prevent congestion.

Tunnels contain numerous safety recesses that are equipped with emergency phones connected to MTC Centre. All tunnels are constructed as a double-tube tunnels with lay-by for vehicles 40 m long and 3.5 m wide. Pedestrian cross-adits as emergency escapes are constructed as a link between two tubes and are located on 240 to 300 m distance along the tunnel. Tunnels as a part of traffic highway network in Croatia are important part of the development of tourism on the Adriatic coast bringing thousands of tourists each year to the Adriatic sea of Croatia.

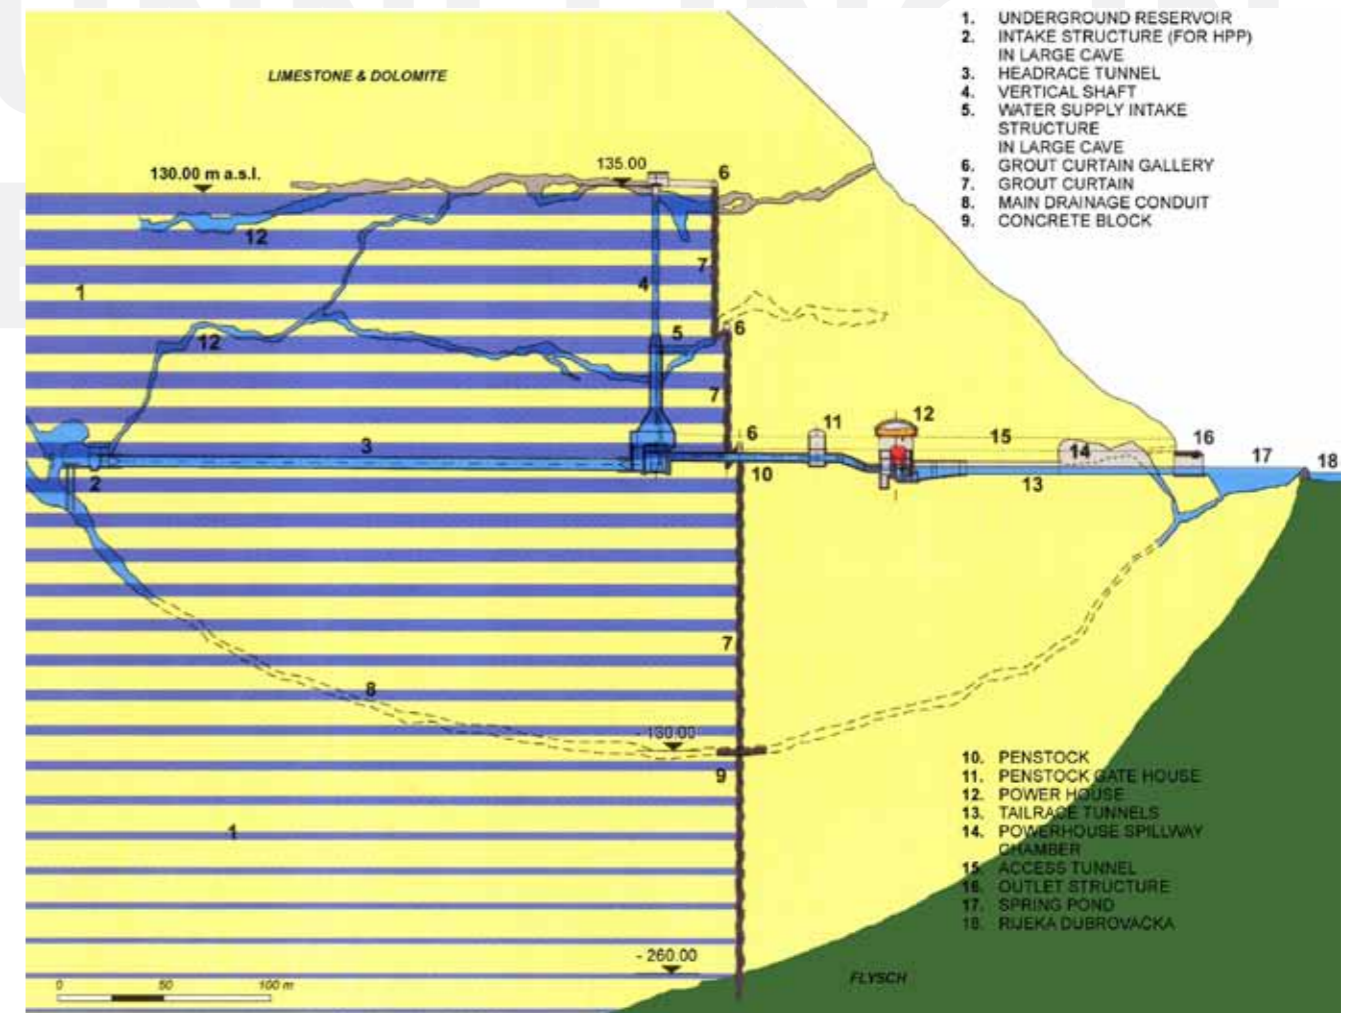

Tunnelling in Croatia

In 2007 the Brinje Tunnel was declared to be the safest tunnel in Europe in 2007 by the FIA and the German motoring club ADAC as the part of European Tunnel Assessment Programme -Euro TAP.

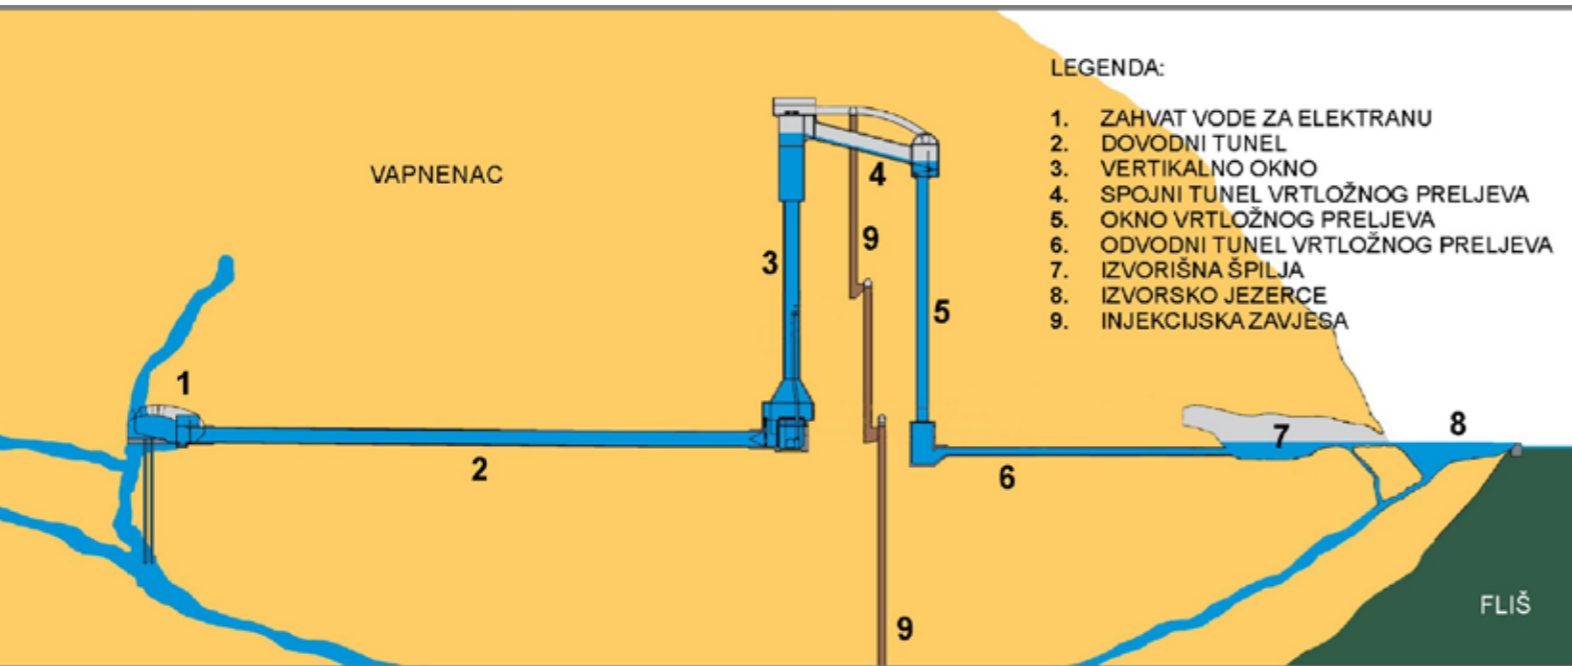

HPP Ombla, Dubrovnik

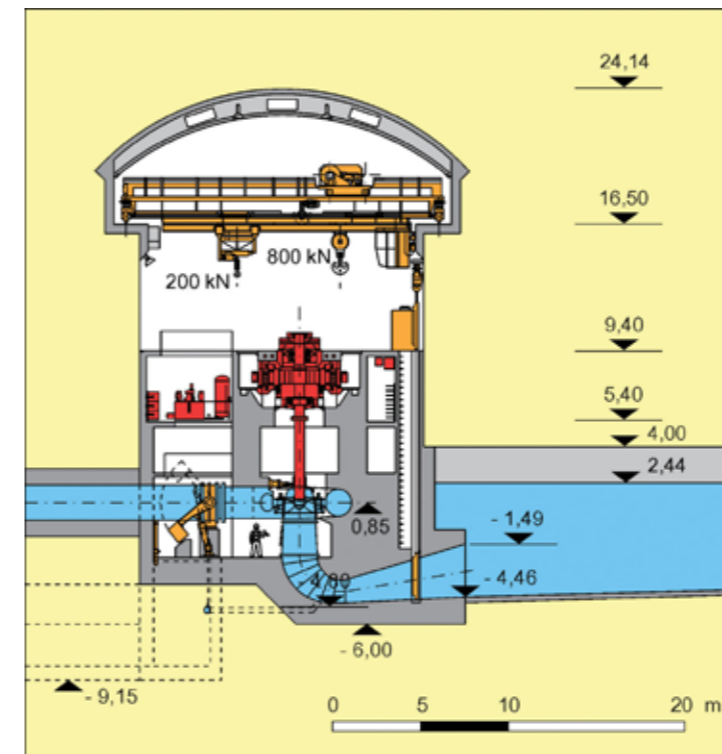

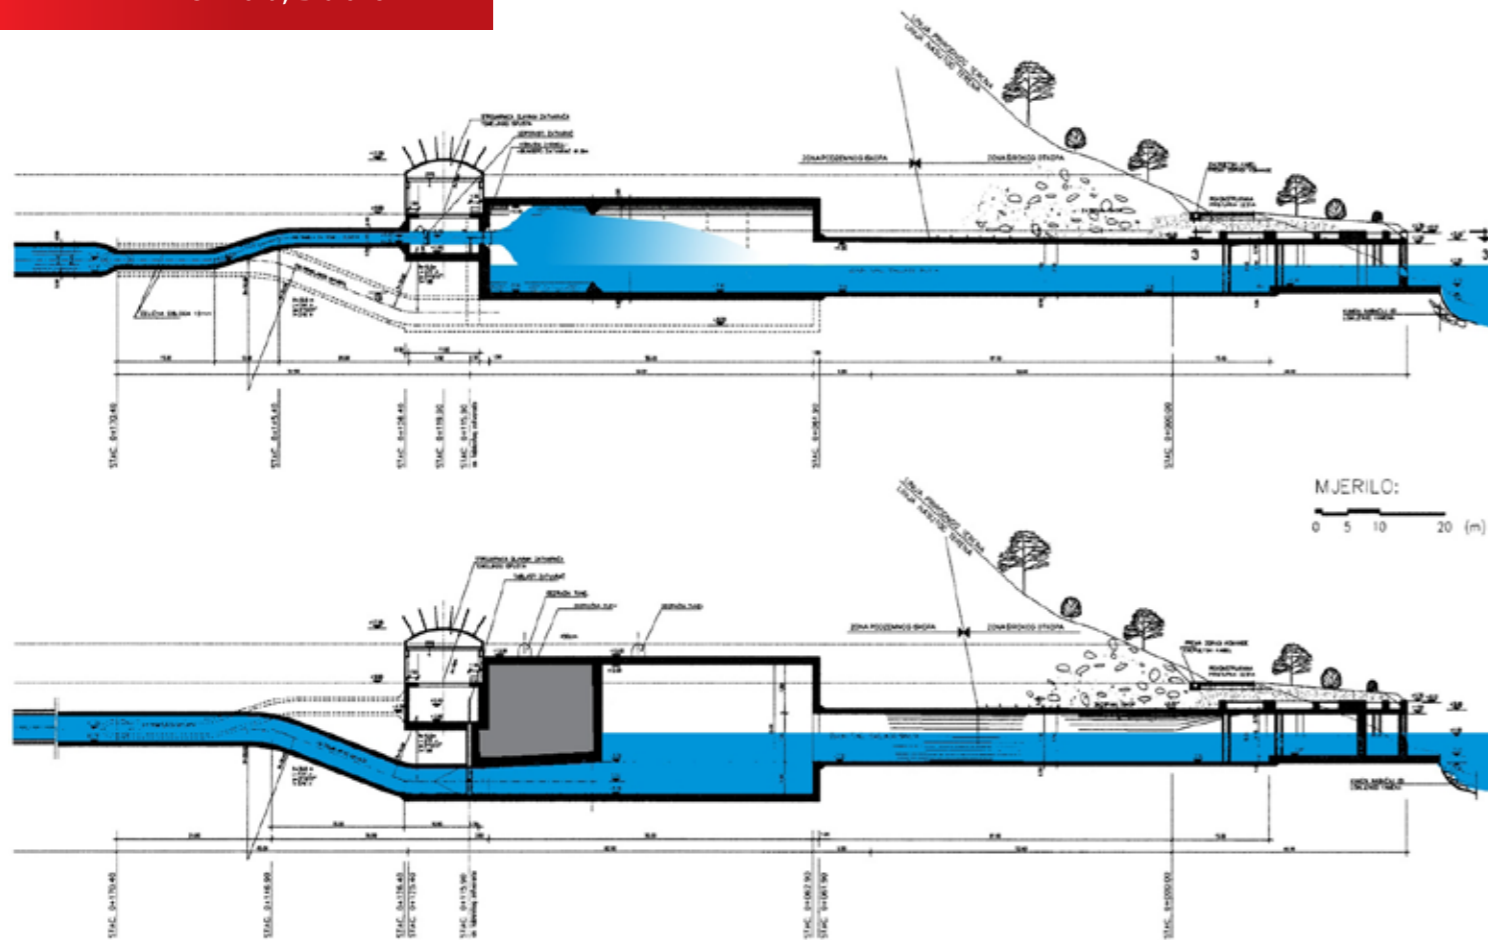

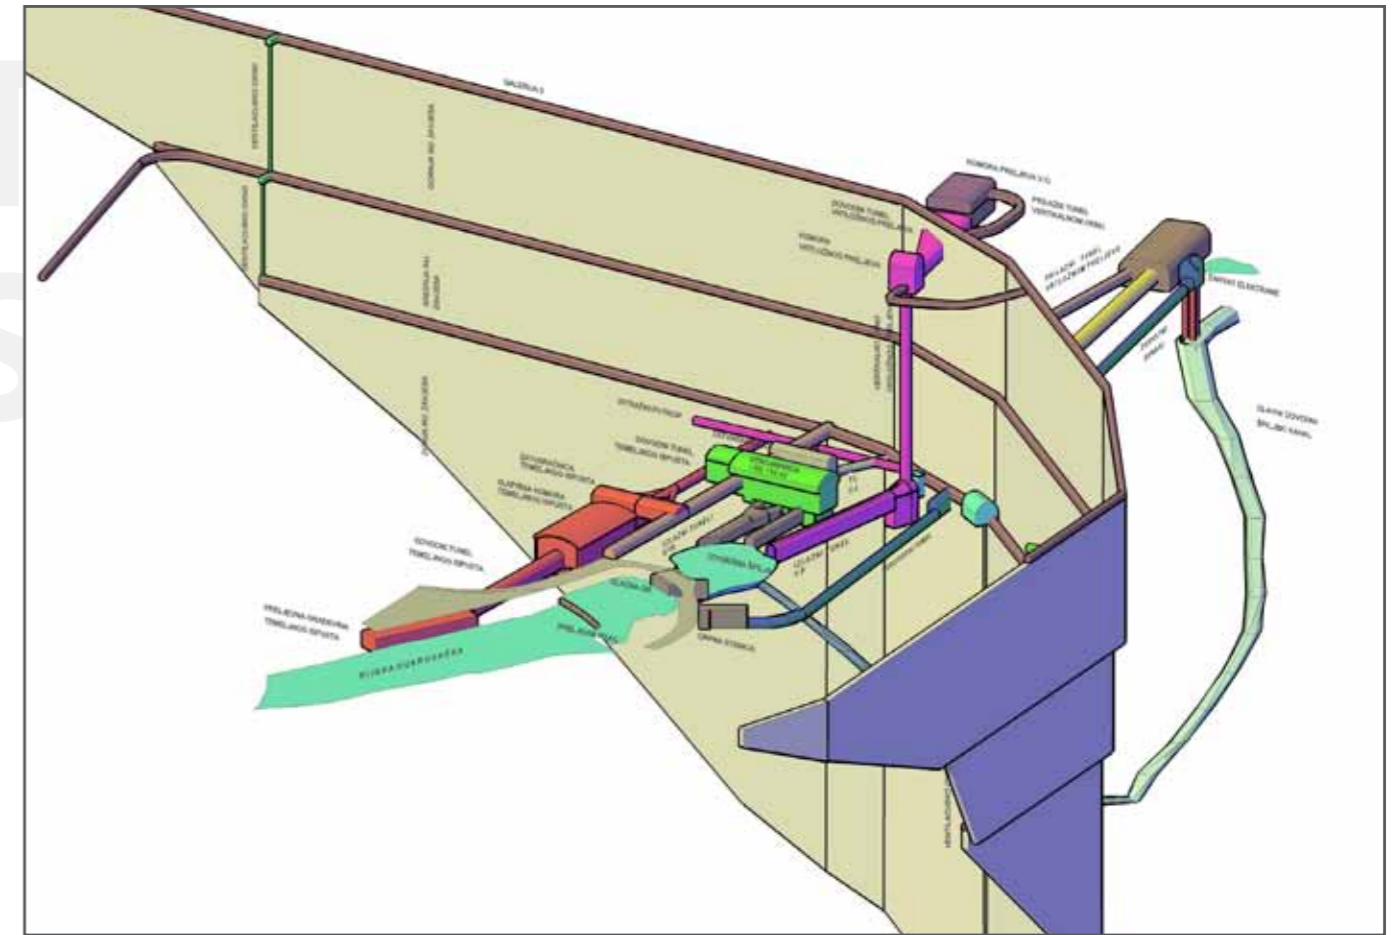

Underground Multipurpose Project and HPP Ombla

The Ombla Multipurpose Hydropower System project in Croatia is conceived as a power generation and water supply project. The concept is based on power-generation harnessing of the water from the underground Ombla river springing at the Adriatic coast near Dubrovnik. The Ombla system backbone is a hydroelectric power plant which differs from the conventional power plants by its underground reservoir and the fact that the water pressure needed to harness the water for power generation is built-up on an underground dam constructed within the Ombla underground spring area.

Other power plant structures are also located in the underground. The Ombla system is also planned for potable water supply the City of Dubrovnik, the future regional water supply, and the water export to the Mediterranean countries. The project is an example how a demanding structure, such as hydroelectric power plant, can be placed under the ground to prevent intrusion into the landscape. Further, the underground project accommodation enables higher power output and cost-efficiency of the entire system.

HPP Ombla, Dubrovnik

The Ombla Multipurpose Hydropower System concept is a completely new approach to the water power harnessing in power generation. Such a concept can only be implemented under adequate hydro-geological conditions typical primarily for the karst area. Since the project site is located in the tourist area of magnificent landscape, the project concept is pervaded by the environmental conservation idea. Thus, all the power plant structures need to be underground and the intrusions into the spring area kept at minimum. Locating of the entire facility under the ground reduces the construction costs, and most importantly, prevents its environmental impact. This is an approach that should be adopted when building hydroelectric power plant in the environmentally vulnerable areas, such as the nature parks, in tourist resorts and urban areas.

Sightseeing and Technical Excursions

Dubrovnik

Towards the southern tip of Croatia lies the Old Town of Dubrovnik, the priceless jewel of the Dalmatian Coast and a world famous UNESCO World Heritage Site steeped in history and culture. George Bernard Shaw once wrote, "those who seek paradise on Earth should come to Dubrovnik", due to its profound beauty and historic magic.

Dubrovnik is also, without doubt, currently one of Europe's most fashionable conference destinations. A surfeit of modern facilities combined with unique activities for delegates make this a popular choice for event organisers.

The Old Town of Dubrovnik

The best way to get a sense of Old Town is to walk its thick fortification walls, which are 80 feet high at some points and pass through a plethora of fortresses and turrets. The one-hour stroll affords great views of tiled rooftops, hidden monastery courtyards, and the surrounding coastline.(1/2 day tour)

Boat excursion to Elafit

The Elaphiti Islands or the Elaphites is a small archipelago consisting of several islands stretching northwest of Dubrovnik in the Adriatic sea. Only the three largest islands are permanently inhabited but they attract large numbers of tourists during the summer tourist season due to their beaches and pristine scenery. They are connected with the mainland via daily ferry lines operated out of Dubrovnik.(1/2 day tour)

Cavtat

Cavtat is a Croatian city with a long history. The original city was founded by the Greeks in the 6th century BC under the name of Epidaurus. Today Cavtat is a popular tourist destination, with many hotels and private homes that rent rooms and apartments. The seafront is filled with shops and restaurants. A ferry boat connects the town to neighbouring Mlini and Dubrovnik. There are often many private luxury ships along the strand. (1/2 day tour)

Island of Korcula

The island has an area of 279 km² (108 sq mi); 46.8 km (29.1 mi) long and on average 7.8 km (4.8 mi) wide — and lies just off the Dalmatian coast. Its 16,182 (2001) inhabitants make it the second most populous Adriatic island after Krk.(1 day)

Lokrum

Lokrum or Lacroma is one of the islands off the city of Dubrovnik about 600 metres from the coast stretching from the northwest to the southeast, in the Adriatic Sea, Croatia. Its highest point above sea level is at 96 m. The Austrian archduke Maximilian once had a holiday home on the island. A monastery and a botanical garden survive from his era(1/2 day tour)

Medugorje & Mostar

Međugorje is a town located in western Bosnia and Herzegovina close to the border of Croatia. Since 1981, it has become a popular site of religious pilgrimage due to reports of apparitions of the Virgin Mary to six local Catholics. Mostar is a city and municipality in Bosnia and Herzegovina, the biggest and the most important city in the Herzegovina region and the center of the Herzegovina-Neretva Canton of the Federation. Mostar is situated on the Neretva river and is the fifth-largest city in the country. Mostar was named after "the bridge keepers" who kept the Stari Most (Old Bridge) over Neretva river. During the Ottoman era, the Old Bridge was built and became one of the symbols of Mostar.(1 day)

Dubrovnik Attractions

City walls

Dubrovnik's most important feature and the most visually dominant symbol of the town; an impressive Middle Age construction where the corner towers of Minčeta, Revelin, Bokar and Sveti Ivan create the city's famous historical shield.

Rector's Palace

"Obliti privatorum publica curate" or "Forget your private business, concern yourself with public affairs". This remarkable inscription can be found above the entrance of the Rector's Palace, the most important public building in Dubrovnik and a site that was once the government headquarters and the Rector's residence.

Stradun (Placa)

Dubrovnik's main street, the city "artery". It has two fountains designed by Onofrio at either end that were built in the 15th century.

Sponza Palace

The oldest multimedia building in Dubrovnik, built in 1520 in a mixed late gothic and renaissance style. It used to be a storage and customs building [Divon], and is now the State Archive where the

most important documents about Dubrovnik's history are kept.

Franciscan Monastery of the Friars Minor

Built in 1317 under the city ramparts near Minčeta. Part of the monastery contains a very rich library that has a large number of preserved manuscripts of invaluable cultural and historical value. Besides from the ancient library, the monastery has also got one of the oldest pharmacies in Europe (1317).

Dominican monastery

The oldest monastery in Dubrovnik (1225) is an extremely valuable historical building, and also houses an important treasury of ancient Dubrovnik artwork, including 239 incunabula.

St. Blaise church

The patron saint of Dubrovnik. This majestic church is located at the intersection of two main thoroughfares, where public gatherings in Dubrovnik are held – 'Placa' and 'pred dvorom'. It was built by the Venetian architect and sculptor M. Gropelli at the beginning of the 18th century.

Old port

Another witness of the times, once the main trading and maritime hub, today a picturesque part of Dubrovnik.

Dubrovnik cathedral

The Baroque cathedral was built between 1673 and 1713 and was designed by the Italian architect Bufalini on the site of the Roman cathedral that was heavily damaged in the earthquake. The people of Dubrovnik named it 'Gospa Velika'.

Orlando's column

Located in the centre of Dubrovnik. The fact that for four centuries the flag of freedom of the Republic of Dubrovnik flew on it makes it one of the most important symbols of Dubrovnik's independence and freedom.

Dubrovnik Events

The Feast of St. Vlaho (also known as St. Blaise)

Where: Dubrovnik, Old town
When: 03.02.

The Festival of St Blaise, Dubrovnik patron saint, has been a special holiday for the City of Dubrovnik ever since the year 972, when people started to celebrate it. Beginning on Candlemass Day with a solemn procession of numerous congregation members, the Festival includes a series of church and secular concerts, exhibitions, book presentations and theatre guest performances dedicated to the patron saint of Dubrovnik, whose statues look at us from the city walls and gates and whose car-

ing hand has protected Dubrovnik on his palm for more than a thousand years.

Dubrovnik Carnival Fest

Where: Dubrovnik, Old town
When: February

Dubrovnik Carnival Fest is an international cultural manifestation, connecting Croatian and regional carnival towns, adding colour and joy to Dubrovnik winter and reviving the town's centuries old cultural and traditional carnival heritage. Dubrovnik Carnival Fest offers plenty of happenings - masked competitions both for "small" and "big", best mask awards, a musical programme with the chosen carnival songs, best compositions awards- all accompanied by lots of laughter and joy.

9th Mediterranean healthy food and medicinal herbs fair

Where: Dubrovnik, Babin Kuk, Tirena Hotel***
When: March/April

The Mediterranean Health Food and Medicinal Herbs fair is considered to be one of the most important organic-agricultural and entrepreneurial fairs of the kind in Croatia and in the Dubrovnik-Neretva County. Every year the Fair attracts a larger number of exhibitors, and both national and international visitors. A number of educational round tables, lectures, presentations, attractive cultural and gastronomic events will be held during the Fair. The Mediterranean table will be organized un-

ITA WTC 2015 CROATIA

der the supervision of the noted Croatian gourmet expert Veljko Barbieri. The restaurants, taverns, pastry shops and bakeries will present their delicacies aiming to promote the use of healthy food in Croatia's hotel and catering trade.

Easter Festivities

Easter programmes in Dubrovnik present the spirit of tradition and the Catholic spirit of the people who piously attend celebrations of the Holy Week, particularly the ceremonious procession under the Cross on Good Friday, and share gifts such as painted eggs, plaited palm leaves and olive twigs, the pinca (a special Easter cake), and a table groaning with organic food and medicinal herbs from the Mediterranean Healthy Food and Medicinal Herbs Fair.

Dubrovnik International Opera Festival

Where: Dubrovnik, The Old Town

When: June

The festival is named after and organized in the memory of the world famous tenor Tino Pattiera born on June 27th, 1890 in Cavtat, a town situated about twenty kilometers away from Dubrovnik, where he died April 24th, 1966.

Dubrovnik Summer Festival

Where: Dubrovnik, The Old Town

When: 10.7. - 25.8.

It all starts with a formal opening, a spectacle in which artists take over the keys of the city and proclaim their "reign" over the city for the duration of the festival. From 10 July to 25 August in the unique ambience of the open-air and enclosed stages of the city of Dubrovnik, there will be numerous drama, musical and dance performances at 14 locations – the Rector's Palace, Gundulic Field, the Sponza Palace, Lovrjenac Fortress and Revelin – to name just a few of them.

Julian Rachlin & Friends Festival

Where: Dubrovnik, Rector's Palace

When: August/September

Julian Rachlin and Friends is a chamber music festival traditionally held in Dubrovnik at the beginning of September. The founder and spiritus movens of the festival is the Austrian violinist and violist Julian Rachlin who has been gathering his friends such as pianist Itamar Golan, cellist Mischa Maisky, violinist Janine Jansen, violinist, violist and conductor Maxim Vengerov and many other well-known musicians, to play together in the atrium of the Rector's Palace.

Christmas Fair

Where: Dubrovnik, Old Town

When: December

The Christmas Fair is taking place in the Old Town presenting traditional crafts (and handicrafts), Christmas decorations, candles, toys, glassware, embroidery, ceramic, porcelain and all the objects which the skilled artist's hands manufactured for Christmas. In the specially decorated little houses the caterers offer Christmas cookies, sweet delicacies, mulled wine, bruštulani mjenduli (candied almonds) and the traditional Dubrovnik sweet delicacies including kontonjata (quince cheese), mantala (must cheese), prikle (doughnuts), hrostule (deep fried biscuits) and other delicacies prepared for this holiday time. Entertaining programmes for all generations are taking place throughout the Christmas Fair.

Dubrovnik New Year's Party

Where: Dubrovnik, Old Town

When: December 31st

On New Year's Eve, the musicians of Dubrovnik will see the old year out with traditional Dubrovnik carols and a music programme lasting all day, which will be the best possible introduction to the wildest night. Numerous visitors to Dubrovnik will begin the New Year entertained by Croatian stars. Traditional Dubrovnik Symphony Orchestra's New Year's concert in the Stradun on 1 January is also a special gift to the City's visitors.

ITA WTC 2015 CROATIA

Congress venue

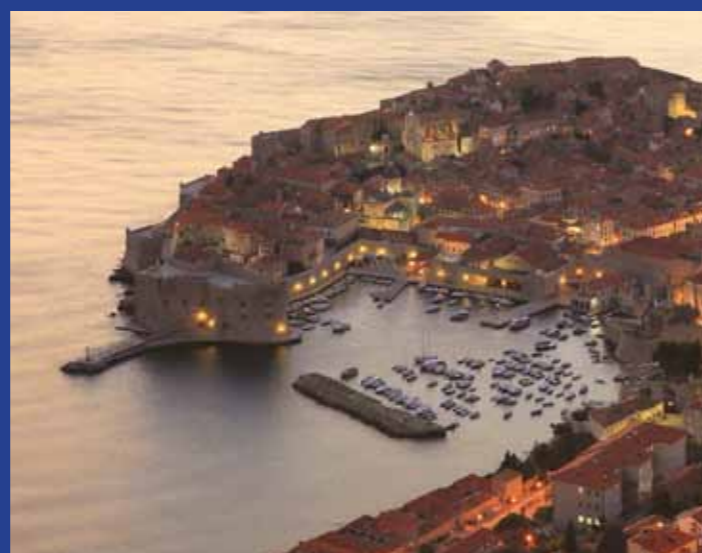

VALAMAR LACROMA DUBROVNIK

HOTEL ★ ★ ★ ★

Experience contemporary styling and 21st century facilities at Dubrovnik's largest conference hotel. Nestled in glorious seclusion amidst the lush greenery of the Babin Kuk peninsula, this ultra-modern resort sets the standard for MICE hospitality and lies just minutes from the city's enchanting old quarter. With capacity for over up to 2000 delegates, you can make a big impression at the Valamar Lacroma - Dubrovnik with both small meetings and larger events.

8 reasons for choosing Valamar Lacroma Dubrovnik Hotel**** and Dubrovnik for WTC 2015:

- Dubrovnik's largest conference hotel, situated within a green oasis the Babin kuk peninsula, and surrounded by clear Adriatic waters
- Wide choice of meeting facilities, from state of art large congress hall for more than 1200 people to smaller board meeting facilities
- 1500 m² exhibition area (including exhibition tents). Modular extended exhibition area of 4500 m² or more (including exhibition tents)
- Valamar guarantee of high quality, with diverse choice of 5*, 4* and 3* hotels within walking distance accommodating more than 2000 delegates. Numerous other hotels in walking distance vicinity
- Only 22km from International Airport Dubrovnik and just 15 minutes' drive from the Old Town of Dubrovnik
- Mild Mediterranean climate and 2.600 hours of sunshine per year
- Stunning historic and natural surroundings for memorable meetings and events
- A broad choice of special programmes in unique settings

Valamar is the first Croatian hotel brand that combines International service standards, great Mediterranean dining experiences and traditional elements of Croatian hospitality.

VALAMAR HOTELS & RESORTS / www.mice-croatia-valamar.com

Dubrovnik Hotels

Today, Dubrovnik is a modern tourist city with high-quality accommodation for both business and pleasure, and a host to many international gatherings every year. The majority of Dubrovnik's hotels are prestigious establishments with modern facilities and state-of-the-art equipment for meetings and events for over a thousand participants. They offer exceptional and inspiring working environments as well as excellent service.
